

September 26, 1947.

Dr. Curt Stern,  
Editor of Genetics,  
5077 Life Sciences Bldg.,  
University of California  
Berkeley 4, California.

Dear Dr. Stern,

Enclosed is corrected galley proof of my paper for Genetics. I have made printer's mistakes in black, and my own in red pencil because you seemed to have made such a precedent, although the mimeographed instructions were contradictory. I hope this will not be too confusing!

I have also indicated the preferable approximate locations for the tables and figures, under the impression that this was done between galley and page proof. I hope that this will not delay you. All bills should be sent to Yale, c/o Prof. Tatum.

Is the proof reproduction the best that can be done with the photograph? It seems only barely acceptable for a journal of Genetics' caliber.

Yours sincerely,

Joshua Lederberg,  
(Asst. Professor of Genetics)
